

VISUALIZATION 1

ITERATION 1.0

TOOL: IIELEVENLABS FLUX AI MODEL: GPT IMAGE 1 RATIO: 16:9 RESOLUTION: 1K GENERATIONS: 4

PROMPT:

RENDER @IMAGE 1 AS A PROFESSIONAL QUALITY, PHOTO REALISTIC RENDER OF A GLASS AND STEEL TOWER IN DUBAI. PLACE TOWER RIGHT OF CENTER IN THE FINAL IMAGE.

REFERENCE IMAGE

EVALUATION – ALL IMAGES MET EXPECTATIONS OF VISUALIZING THE TOWER GEOMETRY IN DUBAI. I’M NOT FAMILIAR ENOUGH WIHT DUBAITO KNOW IF THE COMPOSTION OF BUILDINGS ARE ENTIRELY ACURATE, BUT IT IS EASILY IDENTIFIABLE AS THAT CITY. IMAGE B WAS SELECTED FOR THE NEXT ITERATION.

VISUALIZATION 1

ITERATION 1.1

TOOL: IIELEVENLABS FLUX AI

MODEL: GPT IMAGE 2

RATIO: 16:9

RESOLUTION: 1K

GENERATIONS: 4

PROMPT:

CHANGE THE CONTEXT SO THE TOWER ON RIGHT OF THE IMAGE IS LOCATED IN LONDON ALONG THE RIVER THAMES

EVALUATION – ALL IMAGES WERE SUCCESSFUL IN RELOCATING THE TOWER INTO A NEW CONTEXT THAT IS EASILY RECOGNIZABEL AS LONDON. IMAGES B AND C ARE INACCURATE HOWEVER SINCE THE TOWER OF LONDON IS ON THE WEST SIDE OF THE TOWER BRIDGE AND SHOULD NOT BE IN THE FOREGROUND. IMAGE D WILL BE USED IN THE NEXT ITERATION.

VISUALIZATION 1

ITERATION 1.2

TOOL: IIELEVENLABS FLUX AI
PROMPT:

MODEL: GPT IMAGE 2

RATIO: 16:9

RESOLUTION: 1K

GENERATIONS: 4

ADJUST IMAGE TO NIGHTTIME.

GENERATION FAILED

EVALUATION –

VISUALIZATION 2

ITERATION 2.0

TOOL: IIELEVENLABS FLUX AI MODEL: GPT IMAGE 2 RATIO: 16:9 RESOLUTION: 1K GENERATIONS: 4

PROMPT:

Create a photo realistic rendering of @Image 1. The building facade is primarily brick with soldier course accents and metal panel. The left flag should be the U.S.A. national flag and the right flag should be the New Jersey state flag. Add parked cars in front of the building and people wearing U.S. Army fatigues walking outside. The building is located in a low rise urban setting around Newark, NJ.

REFERENCE IMAGE

EVALUATION – IMAGE A SEEMED TO STRUGGLE MOST WITH UNDERSTANDING THE GEOMETRY OF THE ENTRANCE, DEVIATING THE MOST OF THE FOUR IMAGES. DESPITE NO DIRECT PROMPT FOR SIGNAGE THE AI INFERED THE FACILITY NAME AND BUILDING USE AS A READINESS CENTER. IMAGE 2B WAS SELECTED FOR THE NEXT ITERATION.

VISUALIZATION 2

ITERATION 2.1

TOOL: IIELEVENLABS FLUX AI

MODEL: GPT IMAGE 2

RATIO: 16:9

RESOLUTION: 1K

GENERATIONS: 4

PROMPT:

REMOVE VEHICLES FROM THE RIGHT SIDE OF THE IMAGE, EXTENDING THE CURB LINE FROM THE LEFT ACROSS THE FOREGROUND. REMOVE TREE SHADOW FROM THE LEFT CORNER.

IMAGE 1.3

EVALUATION – ALL VEHICLES WERE REMOVED DESPITE ONYL ASKING FOR THE RIHGT SIDE OF THE IMAGE TO BE AFFECTED. THE TREE SHADOW IN THE FOREGROUND WAS SUCCESSFULLY REMOVED, BUT THE AI STRUGGLED WIHT THE CURB LINE; PERHAPS I WAS NOT SPECIFIC ENOUGH WITH MY PROMPT

VISUALIZATION 2

ITERATION 2.2

TOOL: IIELEVENLABS FLUX AI

MODEL: GPT IMAGE 2

RATIO: 16:9

RESOLUTION: 1K

GENERATIONS: 4

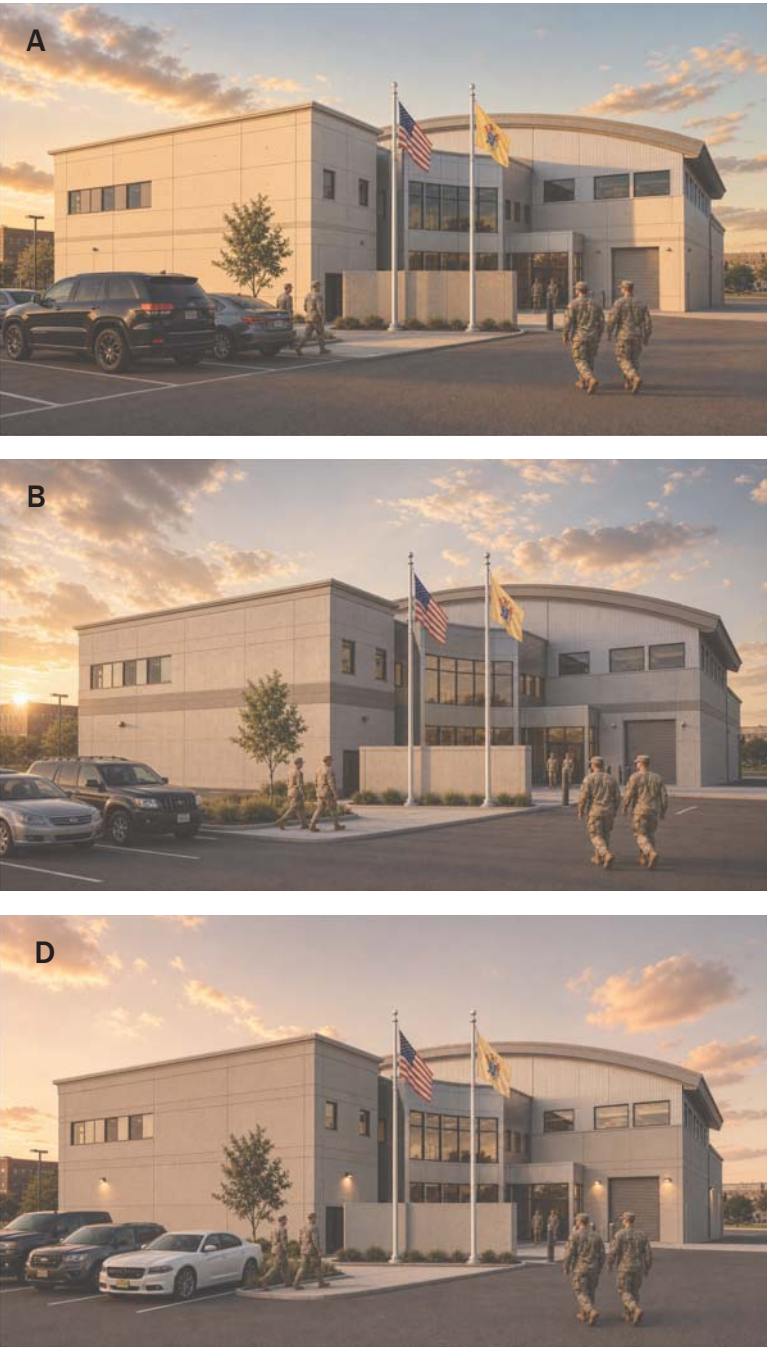

PROMPT:

ADD VEHICLES PARKED IN THE FOREGROUND ON THE LEFT. REPLACE THE BRICK FACADE WITH PRECAST CONCRETE. ADJUST TIME OF DAY TO GOLDEN HOUR.

IMAGE 2.0

EVALUATION – THE AI UNDERSTOOD THE LIGHTS ON THE BUILDING FACADE WITHOUT EXPLAINING WHAT THEY WERE AND LIT THEM ALONG WITH THE INTERIORS.

VISUALIZATION 3

ITERATION 3.0

TOOL: IIELEVENLABS FLUX AI

MODEL: GPT IMAGE 2

RATIO: 16:9

RESOLUTION: 1K

GENERATIONS: 4

PROMPT:

RENDER @IMAGE 1 IN SKETCHY INK AND WATERCOLOR WASH IN A SLOPED URBAN SETTING.

REFERENCE IMAGE

EVALUATION – IMAGE B WAS SELECTED FOR THE BEST INTEGRATION INTO CONTEXT WITH THE LEAST DISTORTION TO THE BUILDING GEOMETRY.

VISUALIZATION 3

ITERATION 3.1

TOOL: IIELEVENLABS FLUX AI

MODEL: NANO BANANA 2

RATIO: 16:9

RESOLUTION: 1K

GENERATIONS: 4

PROMPT:

ADJUST IMAGE TO PHOTO REAL, PROFESSIONAL RENDERING OF A GLASS TOWER, WIHT METAL PANEL PODIUM.
ADD VEHICLES ON THE STREET AND PEOPLE WALKING WIHTIN THE SCENE.

IMAGE 3.1

EVALUATION – IMAGE C IS PROMISING, BUT THE TOP OF THE TOWER WAS CROPPED OFF. WILL TRY AND RESOLVE IN THE NEXT ITERATION.

VISUALIZATION 3

ITERATION 3.0

TOOL: IIELEVENLABS FLUX AI

MODEL: GPT IMAGE 2

RATIO: 16:9

RESOLUTION: 1K

GENERATIONS: 1

PROMPT:

ADJUST IMAGE SO THE TOP OF THE TOWER IS NOT CROPPED. KEEP THE BUILDING AND CONTEXT ALONG WITH THE SCENE LIGHTING. ADD BIRDS FLYING IN THE SKY.

IMAGE 3.0

EVALUATION – IMAGE C WAS THE ONLY ONE THAT DID NOT DISTORT THE TOWER PROPORTIONS.
